EDUCATION

Bachelor of, Computer Science

RIPHAH INTERNATIONAL UNIVERSITY

📅 2016 - 2020 📍 Faisalabad, Pakistan

WORK EXPERIENCE

SENIOR FLUTTER DEVELOPER

InterPayMEA (Saudi Arabia)

📅 Dec 2022 - current 📍 Remote

- ♦ I am working as a senior Flutter developer. My duties are here to work with the junior team to design, develop and publish the app.
- ♦ Collaborating closely with the management and the designer to gather requirements and develop accordingly.
- ♦ Working on Bloc Pattern, responsiveness, performance, scalability and maintainability.
- ♦ Managing code repositories, code reviews and PR process with bitbucket.

FLUTTER DEVELOPER

NEXGEN VENTURES (Pakistan)

📅 Mar 2021 - Nov 2022 📍 Lahore

- ♦ I started here as a junior Flutter developer. Collaborated with the owner and design team to develop UI, Integrated APIs and Publish on the Play Store.
- ♦ Used Flutter, Dart, and Bloc for developing the app; managed repositories and pull requests with Bitbucket

FLUTTER INTERNEE

CAREER INSTITUTE (Pakistan)

📅 Aug 2020 - Feb 2021 📍 Faisalabad

- ♦ Worked as an intern Flutter Developer, and learnt a lot of things in Flutter Framework.
- ♦ Learnt the Dart programming language, Flutter widgets, localization and many other things in flutter.

SKILLS

- ♦ Flutter Framework
- ♦ Dart
- ♦ Kotlin
- ♦ SQL
- ♦ RESTful APIs
- ♦ Libraries

CAREER OBJECTIVE

Motivated and energetic Senior Flutter Developer with extensive experience in designing and developing scalable mobile applications. Seeking a position in a growth-oriented company where I can leverage my expertise in Flutter and mobile app development to drive innovation while further enhancing my skills.

PROJECTS

WAHOOX

eCommerce app in Flutter

- ♦ Wahoox is an eCommerce app that has the option to order goods.
- ♦ This project was based on many other options like job posts, barter system, short services, and learning module.
- ♦ Used Rest APIs, Flutter framework, and Programming skills to develop the apps.
- ♦ It also includes phone authentication, provider state management, and Data Modeling.

PYXIS

Taxi and Delivery app in Flutter

- ♦ This project includes many modules like Taxi, Rental, Out Station, Food, grocery, and Pharmacy Delivery
- ♦ This project is build on flutter and using Bloc pattern, backend on Laravel and it also includes FCM notification, twilio and Firebase

INTERPAY RETAIL POS

Ordering tablet app in Flutter

- ♦ This is a POS app made for the admins and cashiers of the shops and they can order and make payments from it. Miura is the payment gateway for this app.

SOFTPOS

Wallet App

- ♦ Retail Payment App from InterPay which facilitates easy and simple card payment acceptance solution for retailers in Saudi Arabia.
